

EAST-WEST CAVIAR BITES

by radish*rose

Ingredients for a nice plateful of crackers:

1/10 lb. fresh salmon roe caviar (in case you're not too sure what 1/10 lb. looks like, the contents would have filled perhaps a shot glass and a half)

~20 sesame-flavored rice crackers (or whatever flavor you like - I used KA-ME rice crackers, in the red package) - you may need more or fewer depending on how far your salmon roe goes and how much you put on each cracker

Sliced green onion

Reduced-fat sour cream

Equipment: A pretty plate or platter

Method:

Spread a small dollop of sour cream on each cracker. Sprinkle each with sliced green onions. Top each with a small dollop of caviar. DONE! I told you it was easy. Admire and eat!
